Tigercat 845C/L845C Feller Buncher

INTRODUCTION

An Operator's manual, Service manual and a Parts catalog are made available by Tigercat to assist the dealer, customer and operator in becoming familiar with the features of the 845C/L845C Feller Bunchers.

Serial numbers:

845C 84511861 TO 84512500

L845C 84521861 TO 84522500

NOTE: The 4th digit in the machine serial number indicates the machine model type. For example, 1 = Feller Buncher and 2 = Leveling Feller Buncher. For simplicity throughout this manual the 4th digit has been replaced with an asterisk to indicate that both types of machine models are affected, for example 845*1861 TO 845*2500.

The 845C/L845C Feller Bunchers are designed for harvesting trees, selective felling, thinning and final felling applications in plantations and natural stands.

The operator's manual will assist the operator with the techniques of proper and safe operation of the 845C/L845C Feller Bunchers. There is also important information regarding the safe operation of the saw head. The service manual contains safety and servicing procedures and a preventive maintenance schedule to ensure optimum machine performance. For manual part numbers, see the 'table of contents' page in each manual.

Section 1 in both the operator's manual and the service manual contains safety information that must be followed. As well, throughout the rest of the manuals, DANGER, WARNING and CAUTION notices are displayed where necessary, drawing attention to possible hazards when performing certain procedures.

Only trained personnel should be allowed to operate or work on the machine.

The information contained in this manual is current at time of printing. Improvements to the machine are on-going and may not be covered, therefore in these cases contact your Tigercat dealer for the appropriate information.

Tigercat reserves the right to make changes to the machine after this manual release date that may not immediately appear in this manual.

Every effort is made to send out updates on a regular basis. If the machine in question was built after the release date of this manual and there is a discrepancy, call Tigercat service department. The release date appears on the first page.

The Company reserves the right to change information contained herein at any time without prior notice.
