A PASSION FOR PERFORMANCE.

At Volvo Construction Equipment, we're not just coming along for the ride. Developing products and services that raise productivity – we are confident we can lower costs and increase profits for industry experts. Part of the Volvo Group, we are passionate about innovative solutions to help you work smarter – not harder.

Helping you to do more

Doing more with less is a trademark of Volvo Construction Equipment. High productivity has long been married to low energy consumption, ease of use and durability. When it comes to lowering life-cycle costs, Volvo is in a class of its own.

Designed to fit your needs

There is a lot riding on creating solutions that are suited to the particular needs of different industry applications. Innovation often involves high technology – but it doesn't always have to. Some of our best ideas have been simple, based on a clear and deep understanding of our customers' working lives.

You learn a lot in 175 years

Over the years, Volvo has advanced solutions that have revolutionized the use of construction equipment. No other name speaks Safety louder than Volvo. Protecting operators, those around them and minimizing our environmental impact are traditional values that continue to shape our product design philosophy.

We're on your side

We back the Volvo brand with the best people. Volvo is truly a global enterprise, one that is on standby to support customers quickly and efficiently – wherever they are.

We have a passion for performance.

LOADED, TO LIFT UP YOUR PROFITS.

Enter the cab to see and feel what makes the Volvo Care Cab a legend in comfort. Visibility is excellent to the rear and to the bucket edge. Operator controls are in ergonomically positions. Breathe and work at ease in clean, quiet comfort. It's loaded with features to keep your extended focus on profit-enhancing productivity.

Volvo Care Cab

The Volvo Care Cab provides the industry standard for operator comfort and safety. It's spacious, with plenty of foot, leg and personal space. The Volvo Care Cab applies to ROPS/FOPS standards.

Air Filter

Breathe easier with the best cab air climate in the industry. The well placed cab air intake is placed high up to stay away from dusty air from the tires. The easy-to-replace pre-filter separates out coarse particles. Then 90% of the cab air is circulated through the main filter, resulting in very clean air.

Excellent visibility

See it all and do it all in your Volvo wheel loader. Wide windows and narrow cab columns put you in command with clear, all-around visibility. Very good view to the attachment/corners. Improves comfort and jobsite safety, for greater productivity.

Noise reduction

Noise and vibration dampening make for a low interior cab sound level.

Electro hydraulic servo controls

The servo controls are mounted on the operator seat, for consistent positioning in relation to seat movements and jostles. The high quality servo controls includes for the operator easy individual settings by push button features like return to dig, boom & tilt detent and end dampening from inside the cab. Relaxed operation and comfort.

Climate control comfort

Volvo's high sufficient climate control allows the operator to have nice cab temperature no matter the weather conditions. Select between the standard Automatic Heat Control (AHC) or optional Air Conditioning (AC). A comfortable operator is a more productive operator.
